

## CURRICULUM VITAE PROFESSOR MARCO FALASCA

### **Career summary**

Professor Falasca is currently a Full Professor in Metabolism, at Curtin Medical School, Curtin University, Perth, Australia. He is also an Adjunct Professor in Molecular Pharmacology, Blizard Institute, Queen Mary University of London and Visiting Professor at University of Piemonte Orientale, Italy. He was a Professor at Queen Mary University of London and Senior Lecturer in the Department of Medicine, University College London. He did his PhD at Mario Negri Institute Italy and postdoctoral studies at Dept. of Pharmacology, New York University, USA. His major interest is the investigation of cellular and intercellular communication with particular focus on the role of the endocannabinoid system in pancreatic cancer progression and gastrointestinal functions and exosomes pathophysiology.

### **Education**

1986 - 1987 Diploma of Specialization, MASTER, Applied Pharmacology, Univ. of Bari, Italy.  
1983 - 1984 Laurea, Pharmacy, cum laude, University of Camerino, Italy.  
1988 - 1989 Laurea Diploma, cum laude, Pharmaceutical Chemistry, Univ. of Camerino Italy.  
1991 - 1994 PhD (eq) in Molecular Endocrinology, Consorzio Mario Negri Sud (CMNS), Italy.

### **Current and past appointments:**

Current position: Full Professor in Metabolism, Curtin Medical School, Curtin University, Perth. Adjunct Professor in Molecular Pharmacology, Blizard Institute, Queen Mary University of London.

Visiting Professor University of Piemonte Orientale, Novara, Italy  
May 2007- 2014 Professor, Queen Mary University of London.  
2001 – April 2007 Senior Lecturer, Department of Medicine, University College London  
2000-2004 Adjunct Professor, University of Chieti, School of Oncology  
1998 – 2000 Telethon Award and Head Unit of Physiopathology of Cell Signalling, CMNS, Italy.  
Nov - Dec 1998 FIRC Research Award, Dept. of Pharmacology, New York University, USA.  
1995 - 1997 AIRC Research Award, Department of Pharmacology, New York University, USA.  
1991 - 1994 FORMEZ Research Award (PhD equivalent), CMNS, Italy.  
1988-1989 Research experience, Dept. of Biophysics, University of Debrecen, Hungary.

**Grant Funding received.** Several competitive grants obtained in Italy and UK from national, European and American agencies including European Union (European Consortium for Translational Cancer Research), Worldwide Cancer Research, American Institute for Cancer Research, British Heart Foundation, Diabetes UK. In addition, he received four consecutive grants funded by Pancreatic Cancer Research Fund from 2008 to 2014.

Recent research support includes:

Avner Pancreatic Cancer Foundation Accelerator Grant, "A novel therapeutic target in pancreatic cancer: Implications for therapy and diagnosis" \$674,252, 2017-2019.  
Diabetes Australia, "Development of novel GLP-1 releasing agents" \$60,000, 2017.  
Prostate Cancer UK, "Role of phosphoinositide 3-kinase C2beta in prostate cancer" £213,740, 2014-2018. (co-PI with Dr Tania Maffucci).  
Medical and Health Research Infrastructure Fund (MHRIF) 2019 Round 23 "Investigation of the microbiome/bile acid/cannabinoid interplay".

Industry Sponsorship of a PhD studentship plus 45.000\$ consumables for three years funded by AB Analitica (total 120.000\$). "Investigation of novel biomarkers for pancreatic cancer". Industry Sponsorship from 2017 of 400.000 \$ funded by Zelda Therapeutics. "Testing CBD-rich and THC-rich whole plant extracts in human pancreatic cancer". Additional ongoing industry Sponsorship from Backreef Oil LTD, Firstlight Pharmaceuticals, Little Green Pharma.

### **PhD students supervision in the last five years**

**Supervisor:** Mr Chanse Fyffe (registered February 2011; title conferred 2015); Mr Riccardo Ferro (registered Apr 2012; title conferred 2015); Mr Syamsul Ahmad Arifin (registered October 2012; title conferred 2016). **Co-supervisor:** Ms Emily Ruban, Ms Simona Mazza. Current PhD students: Minkyung Kim (enrolled June 2015); Aleksandra Adamska (title conferred 2019); Omar Elaskalani (title conferred 2019); Aikaterini Emmanouli (title conferred 2020); Silvano Paternoster (title conferred 2020); Romana-Rea Begicevic (enrolled January 2017) Pratibha Malhotra (enrolled January 2020), Dinesh Thapa, Arunima Panda and Mohan Patil to be enrolled soon (COVID travel restrictions).

### **Professional involvement-Meetings Organizer**

2007 "Phosphoinositides on the slope" Fara San Martino, Italy - Chair

2009 "Pancreatic Diseases" Fara San Martino, Italy - Chair

2011 "Inositolides Pharmacology and diseases" Keystone Symposia, Keystone, Colorado, USA - Chair

2013 "Pancreatic Diseases" Gordon Research Conferences, MA, USA – Chair

2014 "Membrane, Morphology and Function", Biochemical Society, Fara San Martino, Italy – Chair

2019 2nd Cancer Pharmacology and Precision Cancer Therapy Conference. Weifang, Shandong, China

2019 "ASBMB 2019" Fremantle, Australia – Programme organizer.

2020 "Cancer Therapy" Melbourne 23-25 March 2020 – Chair.

2021 "Cancer Science and Targeted Therapy Conference" Melbourne 6-8 September 2020 – Chair.

### **Membership**

Member of learned society such as Biochemical Society, Diabetes UK, British Association for Cancer Research, Australian Pancreatic Cancer Genomic Initiative, Australasian Pancreatic Club, Gastroenterological Society of Australia.

### **Role at Curtin University**

2015-2018 Chair of the School of Biomedical Sciences R&D committee and responsible for seminars organization within the School of Biomedical Sciences. From 2017 Member of the Health Sciences Grant Success Panel.

### **Panel Roles**

Panel Member, Australian Research Council College of experts, 2016-2018

Panel Member, National Health Medical Research Council, 2019-2021.

Panel Member BHP Blue Sky Research, 2019.

Panel Member Faculty of Health Sciences Grant Success Panel, Curtin University, 2017-current.

Panel member Medical Research Future Fund "Improving Diagnosis in Cancers with Low Survival Rates" Grant Assessment Committee.

## **Peer review involvement**

### **Editorial board:**

Editor in Chief Oncogenic Signaling. Associate Editor Board of Cancer Endocrinology (specialty section of Frontiers in Endocrinology and Frontiers in Oncology). Editor BBA General subjects, Cancers, Frontiers in Pharmacology, Frontiers in Physiology, Frontiers in Endocrinology, PlosOne, Journal of Molecular Biomarkers & Diagnosis (former *Editor in Chief*), CBD Lipid signaling, Biochemical Journal, (*Editorial Adviser*), World Journal of Gastrointestinal Oncology, Annals of Translational Medicine .

**Peer review:** Top journals such as Nature Medicine - Cancer Research - Oncogene, - etc

### **Grant peer review:**

ARC, NHMRC, BBSRC, WELLCOME TRUST, Cancer Research UK, MRC, Diabetes UK, Association for International Cancer Research, INSERM, AFM Association Francaise contre les Myopathies Research Grant, Health Research Council of New Zealand, Croucher Foundation, Hong Kong, Austrian Research Fund FWF, Rosetrees Trust UK.

### **Patents**

Prof Falasca is author of the following patents:

Novel inositol phosphate derivatives. Marco Falasca, Andrew Michael Riley, Himali Yasmin Godage, Barry Victor Lloyd Potter. WO 2011064559 A3 2011

PCT Int. Appl. (2018), WO 2018170553 A1 20180927; M. Massi, P. V. Simpson, M. Falasca: “*Complexes and uses thereof*”, describing the use of organometallic rhenium complexes as anticancer agents.

PCT/AU2018/050941; P. Simpson, M. Massi, M. Falasca: “*Synthetic derivatives of oleyyllsophosphatidylinositol (oleoyl-LPI) and uses thereof*”, describing the use of synthetic analogues of oleyl-LPI as agonist for the GPR119 receptor.

Patents on Sulindac derivatives and novel combinations of plant extract recently filed (PCT).

## **Advisory Board Role**

Firstlight Pharmaceuticals LLC, R3Gen.

## **Contribution to field of research**

The focus of Prof Falasca's research in the past 30 year involved the investigation of signalling pathways regulating intracellular physiological and pathological processes. Prof Falasca work is mostly focused on intracellular signals regulated by specific lipids that act as “second messengers” inside a cell to control a plethora of cellular functions, including cell growth, proliferation and metabolism. Attention is specifically focused on lipids known as “phosphoinositides” that can regulate several cellular functions. His early work identified for the first time the biological activity and signalling properties of phosphoinositides such as the lysophospholipid lysophosphatidylinositol. He is regularly invited to national and international conferences such as Keystone, Faseb, Gordon and Biochemical Society. He has more than 150 total publications in internationally respected journals, with more than 60 publications in the last 5 years. Cited by 9003 and a H-index of 48 (Google Scholar).
