SUPERVISION OF GRADUATE STUDENTS AND POSTDOCTORAL FELLOWS

Supervisor for Graduate Students at Université Catholique de Louvain, Belgium (2009 – now)

2009 – 2014 Laure-Alix Clerbaux
2009 – 2014 Emeline de Viron (Cosupervisor with F. Bontemps)
2010 – 2016 Jennifer Bolsée
2013 – 2019 Mathias Halbout
2015 – today Benoît Ury
2012 – today Francesca Baldin (Cosupervisor with E. Van Schaftingen)
2018 – today Stéphanie Paquay
2017 – today Isaac Heremans
2019 – today Francesco Caligiore

Supervisor for postdoctoral fellows (2009 – now)

2009 – Isabelle Gerin`
2016 – Marina Bury (visiting fellow from McGill University)
2018 – Sven Potelle

• TEACHING ACTIVITIES (if applicable)

2012 – Methods in Molecular Biology for undergraduates in Biomedical and Pharmaceutical Sciences (shared course with Christophe Pierreux, Jean-Francois Collet & Stefan Constantinescu)
2017 – Human Biochemistry for dentistry students (shared with Frédéric Lemaigre)
2019 – Human Metabolic Biochemistry (with Jean-Francois Collet, Mark Rider)

• INSTITUTIONAL RESPONSIBILITIES

2016 – Tenure
2011 – Assistant Professor, Université Catholique de Louvain, Bruxelles, Belgium
2009 – Graduate Student Supervisor, Université Catholique de Louvain, Bruxelles,

• MEMBERSHIPS OF SCIENTIFIC SOCIETIES (if applicable)

2016 – Society for the study of Inborn Errors of Metabolism
2016 – International Society of Cancer Metabolism

• GRANT FUNDING:

- **ERC consolidator grant 2017** (PI; until 4/2023):
Investigation of a novel metabolic pathway in a distinct subset of cancers
- **Action de recherche concertée 2016** (with Fadel Tissir and Frederic Clotman; - 9/2022): Glycosylation and neural circuit development
- **Fondation contre le Cancer (PI, until 31/12/2020):**
Role of two specific metabolic side activities in cancer biology
- **Fondation Baillet-Latour** (with Emile Van Schaftingen & Maria Veiga-Da-Cunha):
contribution to high resolution mass-spectrometer to investigate diseases of metabolite repair.
- **WELBIO Starting grant (10/2019 – 30/9/2021):**
Novel biochemical aspects of Parkinson's disease

• Publications statistics

- **H-index 31**
- **Citations: 5100 for 49 papers**
