Work History

- 2005-05-
Current **Associate Professor**
*Faculty of Veterinary Medicine
University of Belgrade - Serbia*

- Made contributions in curricular development and innovation in teaching strategies, including incorporation of new technologies for learning and grading.
- Mentor students, including directing research, projects or internships, as well as advising on career paths, degree requirements and postgraduate education options.
- Grade assignments and examinations, recording grades in grade book and reporting to primary course instructor on average performance and students requiring special attention.
- Proctor mid-term and final examinations, assisting students with assignment comprehension and monitoring for indications and cheating.
- Grade quizzes, tests, homework and projects to provide students with timely academic progress information and feedback.
- Use a variety of learning modalities and support materials to facilitate learning process and accentuate presentations, including visual, aural and social learning modalities.
- Build strong rapport with students through class discussion and academic advisement.
- Create lesson plans for courses modifying throughout year to meet time constraints and specific interests of class.
- Impartially evaluate papers, projects and homework assignment of students, delegating grading to teaching assistants when appropriate.
- Work in microbiology and anatomy-histological laboratory.
- Work at the university veterinary clinic.
- Participated as a visiting professor at the Veterinary Faculty of Zagreb, Croatia.
- Taught anatomy courses at the University of Agriculture in Krakow, Poland.
- Taught anatomy courses at the Poznań University of Life Sciences, Poland.
